

MIDAS # 1516
ISLAND POND
 T15R9, AROOSTOOK CO., MAINE
 AREA 32 ACRES

ISLAND POND

T15 R9, Aroostook Co.
U.S.G.S. Deboullie Pond, Maine (7 1/2')

Fishes

Brook trout

Minnows
Creek chub

Physical Characteristics

Area - 32 acres
Average depth - 14 feet
Maximum depth - 44 feet

Temperatures:
Surface - 68⁰F
44 feet - 43⁰F

Principal fishery: Brook trout

Island Pond is considered an ideal coldwater pond. Cold temperatures and high dissolved oxygen levels at all depths classify Island Pond as excellent brook trout habitat.

The trout fishery in the pond is maintained entirely by natural spawning in spring seepages and gravel areas within the pond. Conservative fishing regulations have been implemented to maintain and enhance the sport fishery.

Island Pond is one of many ponds situated in close proximity in T15 R9, a township owned by the State of Maine. A private sporting camp is located on the east shore of the pond.

Two-wheel drive access near the pond is via an improved gravel road system in T15 R9. Watercraft must be hand-carried to the shoreline.
